

Main Application: Screen Printing

4,5 meters probe code: **1130002**

11 meters probe code: **1130003**

Portable indicator for type K thermocouples

Features

This portable digital thermocouple indicator has a large LCD display with 14mm high characters. Its housing is made of high quality ABS plastic. It's supplied with a molded rubber protective shell which makes it ideal for applications in harsh environments. Indicates the instantaneous temperature value, the maximum and minimum measured, with scales in °C or °F.

The keyboard is ergonomic with non-slip keys.

- Portable with yellow protective shell
- Resolution: 0.1 °C (°F) or 1 °C (°F) set automatically based on the temperature value
- Accuracy: -50 °C to 999 °C: $\pm 0.3\%$ of reading + 1 °C; from 1000 °C to 1300 °C $\pm 0.5\%$ of reading + 1 °C
- LCD display with 14 mm high characters
- Update speed: 2.5 times per second
- Designed for K thermocouples with miniature plug
- Weight: 210 g
- Power supply: 1 flat battery PP3 9V (supplied)
- The special probe we designed allows you to measure both the air temperature and that of the surface.
- **2 probes versions available: 4.5 meters (147.5 ft) and 11 meters (36 ft)**
